

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

A hemlock log that measured 34 feet was unloaded in the yard of the Bristol Manufacturing Co. at Bristol the other day.

As Leo Page, 17 years old, of South Londonderry, was splitting wood at his home, the thumb of his left hand was cut off.

Dr. and Mrs. J. P. Miles of Hinesburg, who are enjoying good health, observed the 71st anniversary of their marriage January 30.

A son, born Jan. 28 to Mr. and Mrs. Ed. Deuse of Westfield, and which died next day, was the thirteenth child born to the couple.

Without allowing for depreciation, the net profit derived from Burlington's municipal light and power plant was \$5,788.74, according to the report of the superintendent.

The winter stock show to be held at the government farm in Weybridge under the auspices of the Addison County Agricultural society will be held March 6 and 7.

Perceval Daniels, a Westmore boy, was very badly hurt while sliding down hill last Friday, a gash being cut which was nine inches long and two inches deep and in which 23 stitches had to be taken.

Napoleon Viers of East Georgia has a calf born with three legs, one fore leg and two rear legs. This calf is now six weeks old and is as smart and as large as any calf of his age. It runs around and is as lively as any of the other calves.

Since the fire at the industrial school in Vergennes, five of the boys have escaped. As the inmates of the institution are now in temporary quarters it is not so easy to watch them and those who have run away are not missed until night time.

Henrietta Belden and brother, Danforth, children of Mr. and Mrs. J. D. Belden of Benson, were seriously injured Monday while sliding down hill. Both bones of Miss Belden's right leg were broken below the knee and her brother was injured about the head.

A. C. Harvey, a former well-known business man of St. Johnsbury, a native of Danville and about 70 years old, died recently in Washington, D. C. Since retiring from business Mr. Harvey and family had passed the winters in Washington and the summers at Peaks Island, Me., where they had homes.

The Rutland Automobile & Machine Co. has brought suit in Rutland county court against the town of Fair Haven through Ernest H. O'Brien of Rutland, as counsel, to recover damages of \$800 for an alleged defective highway. It is averred that while Buell P. Haswell, the company's employee, was driving a car between Fair Haven and Hydeville on July 25, 1913, the machine was overturned because of the bad road, and was ruined.

The reports from the 240 or more health officers of the state are being received at the office of the secretary of the state board of health at Burlington and figures are being compiled which will tell almost everything regarding sanitary conditions in Vermont. The report is very full, as it is made from statistics furnished by town and county clerks, as well as the health officers. Among the data received is a card telling of every death during the year, the age, cause, and much other significant matter.

Burlington may be sued for using a system of filtration that is an infringement of patent, the city having been formally notified Wednesday by a firm of attorneys to that effect. The plant, cost \$40,000 and, inasmuch as a clause in the contract between the city and the Ley company, contractors, is to the effect that state and national laws were to be followed and that the city should be indemnified "against any claims or liabilities arising from or based on the violation of any such laws, ordinances or regulations," Burlington will give the matter due consideration before acting.

Governor Fletcher has recently pardoned five state prison inmates, who had been sent down from Burlington and Winoski, and they are in charge of Probation Officer A. L. Sherman of Burlington. They are Louis Fortin of Winoski, Emma Barr of Burlington, Albert Rocks of Winoski, Helen Lillick and Josephine Pasha, sentenced from Burlington early in November for "night walking" for not less than one year. Some of them are prisoners pardoned at the expiration of their minimum sentences and others are given their liberty on condition. All are placed in the care of the probation officer until the time the sentences actually expire.

Mr. and Mrs. Orison H. Sargent observed the 50th anniversary of their marriage Tuesday at their home in Norwich, all of their four children being present, ten grandchildren and one great-grandchild. In the evening, 100 friends gathered at their home. Mr. and Mrs. Sargent were married in Newbury by Rev. Daniel W. Parker, but their whole life has been spent in Norwich, which was their native town. For 47 years they have resided in the same house. Among the guests was Daniel Hoyt of Lower Cabot, husband of Mr. and Mrs. Sargent's oldest daughter, Rose, who died 18 years ago. A mock ceremony was performed by J. W. Armstrong, who also made a presentation speech and the bride and groom of 50 years ago received many gifts.

IMPLICATED THIRD PARTY.

Two Men Charged With Larceny from White River Junction.

White River Junction, Feb. 6.—Thomas F. Lynch, a recent employee of the Central Vermont R. R. and William Barry, employed on the new bridge, were arrested at Mechanicsville, N. Y., charged with the larceny, last Friday night, of three bolts of cloth and some tobacco from freight cars here at White River Junction. They were brought to this place, and in court yesterday afternoon they implicated Charles Knight of this place, as a participant. Knight was arrested and after a hearing was bound over with the others in the sum of \$500 each to appear in county court. Barry and Lynch are comparative strangers here while Knight is well known and has borne a good reputation. Some doubt is manifested as to his having been engaged in this affair.

Oneida, N. Y., Man Sues Rutland Street Railway Company.

Rutland, Feb. 6.—Joseph P. Nelbach of Oneida, N. Y., has brought suit in Rutland county court against the Rutland Street Railway & Power Company to recover \$2,000 on the ground that he was injured at West Rutland while riding on the company's street railway line through an accident due to the company's negligence. Rufus E. Brown and S. R. Moulton of Burlington are counsel for the plaintiff.

It is alleged that while Nelbach was on a trolley car on March 5, 1910, the car was derailed by reason of the dropping down of the motor and he was thrown to the floor and injured about the head and spine.

SCHOOLS FOR IDLE MEN.

Chicago Commission Will Recommend Trade Education for the Unemployed.

Chicago, Feb. 6.—Establishment of trade schools for the teaching of unemployed men will be recommended in a report which will be made soon by the commission on unemployed, which was appointed two years ago by Mayor Carter H. Harrison.

Professor Charles E. Henderson of the University of Chicago, chairman of the commission, announced the substance of the report in an address Wednesday night. The report will propose that the suggested trade schools be placed under the supervision of a board of public welfare, similar to that of Kansas City, Mo. The report also may offer the suggestion that compulsory schools be maintained for those who do not want further schooling and who refuse to work. "The Kansas City board has assisted

RHEUMA WILL STOP URIC ACID DEPOSIT

Rheumatic Complications Checked and the "Human Sewers" Restored.

The kidneys, bowels and skin are the "human sewers" which carry off the impurities in the blood. When these are clogged, uric acid sediment lodges in the muscles and joints and rheumatism follows. RHEUMA, the great remedy for all forms of the terrible disease, checks the deposit of uric acid.

"I suffered from rheumatism for six years. Tried different doctors, with no relief. I have taken three bottles of RHEUMA and am entirely free from the disease." P. M. Miller, Catawissa, Pa. The Red Cross Pharmacy will return your money if it fails; 50 cents a bottle.—Adv.

In solving the unemployed problem by providing trade schools for unemployed men," said Professor Henderson, "and this leisure instruction has produced skilled workmen with increased opportunities for jobs. If the idle man does not want to work, put him in a compulsory colony where he will have to learn.
